

PREMIUM GRIPTWIST BELT

Adjustable to any length... Ideal for center drives, vibration suppression and hostile environments.

Available in infinite sizes... Convenient 5' sections, bulk 100' coils, or cut by the foot to customer specified length.

GRIPTWIST

Higher Capacity

You don't need to compromise when you install Premium Griptwist® belt, because this belt has remarkable strength and durability. In fact, Premium Griptwist belts deliver higher horsepower than any other link-type V-belt.

Easy Installation

Premium Griptwist belts can be assembled to any length required in a matter of seconds, with just a twist of the wrist. No special tools required. No need to dismantle machinery.

Perfect for Emergency Replacement

Premium Griptwist belt minimizes production downtime because it assembles and installs immediately for any length required. A supply of Premium Griptwist belts is positive insurance that you'll never be without the exact belt length you need.

Vibration Free

Premium Griptwist belts have no equal in suppressing troublesome vibration. Because of their extremely close tolerances, they create and transmit up to 90% less vibration than classical endless V-belts.

Low Stretch

Premium Griptwist belt's twist-lock design locks the belt links tightly to the length desired. Combined with the 100% urethane/polyester construction, this produces a belt with less than half the stretch of other link-type belts.

Less Inventory

Premium Griptwist belts are available in standard 3L, A/4L and B/5L cross sections, replacing both standard and fractional horsepower V-belt inventory.

Lower Drive Tensions

The Premium Griptwist belt's raw-edge cog construction allows lower drive tensions, extending both belt and bearing life.

Cooler Running

The cross-link construction of Premium Griptwist belts dissipates heat rapidly, virtually eliminating heat buildup and fatigue.

Superior Design and Materials

Premium Griptwist belt's durability and versatility lies in simplicity of design combined with high-strength urethane elastomer reinforced with multiple plies of polyester fabric. This results in an incredibly strong yet flexible belt, providing consistently high performance.

Oil, Water, Chemical and Heat Resistant

Premium Griptwist belt's rugged construction withstands temperatures from 0° to 250°F...provides excellent resistance to water, oils and many industrial chemicals

Table No. 1

Premium Griptwist Belt		
Product Name	100 Foot Part Number	5 Foot Part Number
