

## PREMIUM GRIPTWIST BELT

**Adjustable to any length... Ideal for center drives, vibration suppression and hostile environments.**

**Available in infinite sizes... Convenient 5' sections, bulk 100' coils, or cut by the foot to customer specified length.**

# GRIPTWIST

### Higher Capacity

You don't need to compromise when you install Premium Griptwist® belt, because this belt has remarkable strength and durability. In fact, Premium Griptwist belts deliver higher horsepower than any other link-type V-belt.

### Easy Installation

Premium Griptwist belts can be assembled to any length required in a matter of seconds, with just a twist of the wrist. No special tools required. No need to dismantle machinery.

### Perfect for Emergency Replacement

Premium Griptwist belt minimizes production downtime because it assembles and installs immediately for any length required. A supply of Premium Griptwist belts is positive insurance that you'll never be without the exact belt length you need.

### Vibration Free

Premium Griptwist belts have no equal in suppressing troublesome vibration. Because of their extremely close tolerances, they create and transmit up to 90% less vibration than classical endless V-belts.

### Low Stretch

Premium Griptwist belt's twist-lock design locks the belt links tightly to the length desired. Combined with the 100% urethane/polyester construction, this produces a belt with less than half the stretch of other link-type belts.

### Less Inventory

Premium Griptwist belts are available in standard 3L, A/4L and B/5L cross sections, replacing both standard and fractional horsepower V-belt inventory.

### Lower Drive Tensions

The Premium Griptwist belt's raw-edge cog construction allows lower drive tensions, extending both belt and bearing life.

### Cooler Running

The cross-link construction of Premium Griptwist belts dissipates heat rapidly, virtually eliminating heat buildup and fatigue.

### Superior Design and Materials

Premium Griptwist belt's durability and versatility lies in simplicity of design combined with high-strength urethane elastomer reinforced with multiple plies of polyester fabric. This results in an incredibly strong yet flexible belt, providing consistently high performance.

### Oil, Water, Chemical and Heat Resistant

Premium Griptwist belt's rugged construction withstands temperatures from 0° to 250°F...provides excellent resistance to water, oils and many industrial chemicals
