

POSI LOCK™'s hub puller adaptors simplify the removal of many industrial and automotive fans and blower wheels by providing a solid connection between the puller and fan hub.

Our unique hub collar design allows our general purpose puller to be utilized on the following equipment: Chillers, Freezers, Condensers, Ice Machines, Furnace Fans, Convection Ovens, Ice Cream Machines, Exhaust & Ventilation Fans, Defrost and AC Fans.

The collar adaptor secures the model 104 puller to hubs up to 3" in diameter. Set screws grip the hub and align the collar adaptor. The puller jaws are tightened securely into the hub collar groove eliminating slippage during fan and blower wheel removal.

HP-2

- 1-Model 104 (3 Jaw 4" 5 Ton Puller)
- 1-Model HP-30 (Small Collar Adaptor)
- 1-Model HP-40 (Large Collar Adaptor)
- 1-Model HP-70 (Tip Reducer/Extender)
- 1-Carrying Case

Tool Box Size: 13" x 9.5" x 5.5"
(330mm x 241mm x 140mm)

Weight: 9 lbs (4.1 kg)
